How to install app:

Welcome to the Certificate Import Wizard

This wizard helps you copy certificates, certificate trust lists, and certificate revocation lists from your disk to a certificate store.

A certificate, which is issued by a certification authority, is a confirmation of your identity and contains information used to protect data or to establish secure network connections. A certificate store is the system area where certificates are kept.

To continue, click Next.

Completing the Certificate Import Wizard

The certificate will be imported after you click Finish.

You have specified the following settings:

		Trusted Root Certification Authorities Certificate	
	Content	Certificate	
ı			
l			

Finish Cancel
